

PUBLIC NOTICE

Free Firewood

The District project to clear trees from the airport area has resulted in some logs that may be suitable for firewood.

Residents are invited to cut and take any wood that is stacked on the south-west side of the airport along Main Street as shown on the map below.

DO NOT cross or enter the airport runway area.

Cutting and gathering firewood is done at your own risk.

Please ensure you are taking necessary safety precautions and respect others that may be in the area.
