District of Stewart Arena Update

POSTED: Tuesday Sept 27, 2022

The District of Stewart would like to provide an update on the Arena Project.

As you are aware, the refrigeration system was due for replacement and the District of Stewart has been working toward replacing the system for the 2022/2023 season.

The District of Stewart has entered into an agreement with Cimco Refrigeration to supply and install a new system.

The project is moving forward with an anticipated delivery date of the new equipment in early November 2022.

The project schedule is 3 weeks for install and 1 week for ice making and arena preparedness, this puts us at early December for arena users to start the ice season.

We appreciate your patience as we work through this project.

Further updates are expected by end of October.

We are working diligently to ensure the project moves forward smoothly and the ice rink will be open to our user groups and community as soon as possible.

Feel free to email us if you have any questions.

Please contact the recreation department at recreation@districtofstewart.com to book your ice time for the 2022-23 season ASAP.
