

PUBLIC NOTICE

WATER SUPPLY SYSTEM COVERED BY THIS NOTICE Stewart Community Water System

ROUTINE MAINTENANCE OF STEWART'S WATER DISTRIBUTION SYSTEM

District of Stewart staff performs weekly sampling from the Water Distribution System and submits to an independent laboratory for testing.

As a part of the routine Maintenance of the distribution system, Stewart staff will also perform a disinfection and flushing program to sanitize the water distribution lines.

This maintenance program will be conducted beginning Thursday May 08, by exercising water valves, during which time you may notice discoloured water. The exercising of water valves will continue May 09 and May 12.
